8. **MOTION ( HON.EDWIN KORIR – (MCA - SIMAT/KAPSERET WARD)**

**Aware that** according to the County Integrated Development Plan (CIDP) (2013-2018) forest resources are diminishing at a high rate due to population pressure; **Further aware that** the rate at which trees are being fell is higher than the replanting rate; **Concerned that** if no proper steps are taken to encourage re-afforestation forest cover will continue to decrease and leave our County with little forest cover; **Noting that** forests contribute to good ecosystems and preservation of water sources which contribute to the economic development; **Further noting that** the seriousness of the matter is exemplified by the recent ban on tree harvesting on all government forest by the National government for a period of three months; This County Assembly urges the County Government of Uasin Gishu through the department of Water, Environment, Natural Resources, Tourism and Wildlife management to encourage all land owners in rural areas to plant appropriate species of trees to cover at least 10% of their land.
