9. **MOTION – (HON.GILBERT TENAI – MCA CHEPTIRET/KIPCHAMO WARD)**

**Aware that** Uasin Gishu County regularly faces severe shortage of water during the dry seasons; **Further Aware that** this situation depends on dams,rivers,boreholes,shallow wells and springs for their supplies most of which dry up; **Concerned that** due to population increase and economic development our County needs sustainable supply of water for prosperity; **Noting that** in order for the County to achieve sustainability in water supply the residents should be educated and sensitized on the need of harvesting of rain water as one way of boosting water availability; **Cognizant that** during rainy season much water could be harvested and stored for use during the times of water shortages: This County Assembly urges the County Government of Uasin Gishu through the Department of Water,Environment,Natural Resources, Tourism and Wildlife Management to prepare a policy on the harvesting of rain water.
