1. Administration of Oath
2. Communication from the Chair
3. Messages
4. Petitions
5. Papers
6. Notices of Motion
7. Statements
- 8. MOTION (HON. CAROLINE BIRGEN- NOMINATED MCA)**

Aware that this County Assembly did deliberate and pass a motion in the year 2015 urging the County Government of Uasin Gishu to conduct a feasibility study on all wetlands in the County and develop an inventory of riparian wetlands and catchment zones; **Further Aware** that in the same motion it was resolved that all wetlands should be demarcated so as to regulate their resource use and thereafter educate the community on how to conserve the said wetlands; **Concerned that** based on the County Integrated Development Plan (2013-18) the exercise was scheduled to be completed by 2015; **Noting that** if urgent steps are not taken to address the situation riparian and wetland zones risk serious encroachment from human settlement and other related activities and may eventually disappear; This County Assembly urges the County government of Uasin Gishu through the Department of Water, energy, and environment and natural resources to immediately undertake a feasibility study on wetlands, develop an inventory of riparian zones and thereafter develop a map on County wetlands and submit the same to the County assembly for approval.
