Aware that forest resources are diminishing at a high rate due to population pressure;**Further Aware that** according to the County Integrated Development Plan(CIDP) 2013-2018 the County Government of Uasin Gishu committed itself to establish Forest Users Association by 2015 as one way to promote and sustain forests within the county ; **Cognizant that** the purpose of establishing such user associations is to increase public participation in the conservation of existing forests and the promotion of new ones; **Concerned that** based on observations forest destruction is still going on unabated and if no immediate mitigation measures are put in place to arrest the situation potential environmental disaster will be in waiting; **Noting that** the County CIDP highlights that the county will focus on strategies that will encompass developing, conserving and protecting forests: This County Assembly urges the County Government of Uasin Gishu through the Department of Environment, Water and Natural Resources to establish and train Forest User Association without further delay.
