**Aware that** Uasin Gishu is the bread basket of Kenya , **Further Aware** that the Agricultural Sector supports 80% of the rural population in terms of house hold income and food security, **Concerned that** no research has been conducted and concluded in respect of the varying agro-ecological zones existing in the County in terms of soil analysis and classification, , **Cognizant that** zoning will encourage specialization ,improve food production, and enhance economic empowerment of the residents, **Noting that** the law on Production Economics envisages that a region should specialize on what it has a comparative advantage, This County Assembly urges the County Government of Uasin Gishu through the department of Agriculture, Livestock and fisheries to carry out a crop mapping exercise in the County based on ecological zones and pass the same information to farmers.
