Aware that economic resources are ordinarily scarce and limited as compared with the many needs; **Further aware that** the main sources of financial income for our County which includes sharable Revenue, locally collected Revenue and loans from development partners are have been insufficient and at times unreliable; **Concerned that** since the inception of devolution in 2013, most Counties across the Country and our County in particular have always had deficits in their budget and thus unable to complete their proposed development projects on schedule; **Noting that** the County Integrated Development Plan(CIDP)identifies Private Public Partnerships (PPP) as a means source of enhancing the mobilization of funds for the County’s activities and programmes; **Further Noting that** the private sector is a major stakeholder in the economic and social development in the County; Cognizant that some developed countries have utilized Private Public Partnerships as a strategy to fastrack their economic development; This County Assembly urges the County Government of Uasin Gishu through the Department of Finance and Economic Planning to formulate a policy framework on Private Public Partnership ventures and submit the same to this County Assembly for approval.
