6. Notices of Motion
7. Statements
8. Motions and Bills
9. **MOTION (HON. HILLARY RONO – MCA KIPKENYO WARD)**

Aware that the National Government has been conducting a campaign and a public awareness on the need of preserving all the water sources in the Country; **Further aware** that such efforts have partly succeeded and therefore there is need for a concerted efforts between the National and County Government to further increase such efforts to secure all water sources and catchment areas in the Country for current, and future generations as well as posterity; **Concerned that** failure to take action now will lead to irreversible destruction of all riparian, wetland and catchment zones in the Country and overally disastrous impact on ecology, climatic conditions and other natural phenomenon like future depletion of the ozone layer; **Noting that** population increase will continue to exert pressure on demand for more land for human settlement and economic activities; This County Assembly urges the County Government through the Department of Environment, Water and Natural Resources to conduct research and develop and inventory of all riparian, Wetland and catchment zones and thereafter ensure that they are secured and protected from further encroachment and preserved for the benefit of the current and future generations.
